

Save The Earth

White Paper 1.0
May, 2020

<http://savetheearth.io>

Introducing STE

STE's mission is to track the changes in the Earth's air by recording the Earth's air pollution on the EOS blockchain, and to ensure that the Earth has clean air.

Fine dust

Fine particles of breath

Ozone

Nitrous oxide

Sulfur dioxide

Carbon monoxide

More than 1,000 cities in 106 countries

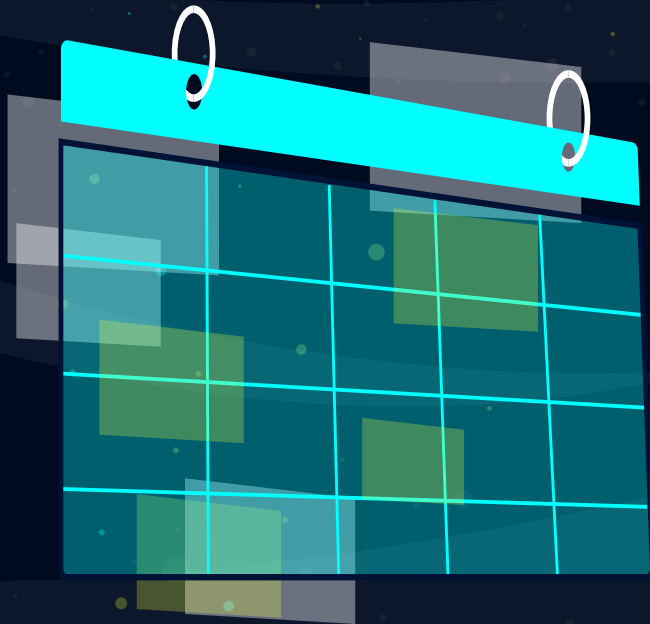

STE records air pollution for more than 1,000 cities in 106 countries on the EOS blockchain.

Airgrab

Accounts with 100 or more EOS
will airgrab 5,000 STE

Accounts need to hold at least 100
available EOS (not staked)

You can claim airgrab on the
website (<http://savetheearth.io>).

A large, stylized green opening quotation mark is positioned on the left side of the slide. The background is a dark blue space with scattered yellow and light blue stars and wavy, layered bands of varying shades of blue and grey.

We are borrowing the earth
from our descendants.

A large, stylized green closing quotation mark is positioned on the right side of the slide, mirroring the opening mark on the left.
